## Two Snowstorms Hit Within Week

### Traffic Tied Up and Transportation Is Delayed as Ice Coats Windshields — Public Works Department Kept Busy

Arlington had hardly recovered from last Saturday's snowstorm — the first of this winter — when it was hit early yesterday by several more inches of snow which gave way to sleet and light rain.  
At least one person was injured in Arlington and required hospital treatment as an aftermath of yesterday's storm. Miss Bernice Newborg of 9 Mt. Vernon st., was struck by a Boston Elevated street-car near the Central fire station shortly after 7 yesterday morning. She had just alighted from the incriminated car when the accident occurred. Firemen summoned the police ambulance and the victim was removed to the Symmes Hospital.  
Snow furries late New Year's night was followed by a steady fall that added four more inches of snow by daybreak yesterday. The Public Works department called out snow fighting equipment shortly after midnight and by (Continued on Page Two)

# Two Storms

(Continued from Page One)

morning most streets were plowed. Blade plows, pushed by trucks, were used on main thoroughfares, while on Massachusetts ave. and other streets over which Boston Elevated buses travel "E" plows assisted in removing the snow.

Horse-drawn sidewalk plows were also used yesterday, although in some sections sidewalks were not cleared in time for the reopening of school sessions yesterday morning. As a result, school children were endangered by automobiles whose windshields were coated with ice, making visibility extremely poor for motorists. Many Greater Boston communities sounded "no school" signals, especially for children in the lower grades.

Every available piece of equipment at the town yard, as well as hired trucks have been used during a week of snow fighting since the last week-end's storm. First, streets were plowed. Sleet which followed caused extremely hazardous conditions over Sunday and again on New Year's eve, making it necessary to spread sand on hills and at intersections. Tractor plows were used on hills in both storms.

Snow loaders were brought into the picture in the business section and in the vicinity of churches and truckload after truckload of snow was dumped into the Fowle Mill Brook off Summer st., where bulldozers were kept busy pushing the snow back.

The 19 horse-drawn plows being used pending the delivery of sidewalk tractor plows were first used last Sunday.

**Boys Help Clear Snow**

High School boys on vacation were given a chance to earn extra money when hired to shovel snow thus augmenting the regular highway department crew.

James R. Smith, member of the Public Works Board, was on hand to supervise the snow removal task yesterday.

Although many pedestrians experienced bad falls on icy sidewalks during the past week, the only accident of this kind reported to

# Boy Scout Notes

**Troop Goes Places**

Last Thursday, the coldest day of the winter, 13 Scouts, under the leadership of John Fallon, were guests of Edward Rowe Snow, historian, on a trip down Boston Harbor.

The Scouts met Mr. Snow at the Old State House on Washington st. at noon where they viewed the historical collections and were told an interesting story of the day when the structure housed our legislators. Later the Scouts listened to many thrilling stories of adventure and of the islands of Boston Harbor as the Stephen O'Meara bucked the heavy seas on its way to Long Island. The Scouts visited the electrically-controlled light-house and at the hospital all the Scouts photographed a copy of Mr. Snow's latest book which was presented to the chaplain. The howling winds, intense cold and rolling seas gave color to the stories of the pirates of yore as the boat pitched and tossed through the high waves.

That evening Troop Nine was host to the Men's Club of the Church of Our Saviour and put on a Baker's play version of Dickey's Christmas Carol which followed the Troop Nine birthday dinner. Senior patrol leader Albert Held took the part of Scrooge and the other patrol leaders, Bruce Stephens, Donald Glover, Donald Irving and Charles Curtis read the supporting parts.

Troop Nine carried on a successful paper drive during the cold and storms of last week-end. The Scouts battled the elements on Sunday, from noon until long after dark to fill the collection truck. The Scouts exhibited plenty of sticktoitiveness to complete the waste collection mission under most trying circumstances.

The first overnight cabin trip of Nine will be held tomorrow at Cabot Reservation woods, Waltham.

## Drowning

(Continued from Page One)

the pair were Frank Allgood, 27, of Atlanta, Ga., who was visiting at the home of Mr. and Mrs. A. Gordon Weir; Allgood's brother-in-law, Arthur G. Wier, 17, of 8 Maynard st.; Robert Carey, 15, also of Maynard st., and Cyril Myatt of 10 Grove st.

According to police, the Haley

brothers were on their way home to supper when they decided to cross the ice-coated stream from the Arlington side. When about 10 feet from shore, the ice gave way and both were plunged into the icy waters.

Allgood, who was walking across the bridge on his way to a West Medford grocery store, heard the boys' cries. He saw the pair in the water and immediately tried to stop several motorists to get assistance. When none stopped, All-

good ran to a nearby service station and summoned police and firemen.

Meanwhile, young Weir, who is recovering from a recent attack of infantile paralysis, and Carey came on the scene with Myatt, who happened to be driving by in his car. Boys, whose names were not taken, pushed a plank out to the younger Haley boy and he got a hold of it once but lost his grip and drifted toward the center of the stream.

Canoe Used in Rescue Try

While this effort was going on, a canoe was dragged to the edge of the stream from Carey's garage, a short distance away from the bridge. Myatt jumped into the canoe and paddled out to the center of the stream. After a struggle in mid-stream, during which the fragile craft nearly capsized, Myatt pulled Robert Haley aboard.

By this time, Arlington, Medford and Metropolitan District police, as well as Arlington firemen, had converged at the bridge in answer to an emergency call. The first of the pair rescued was placed in the Arlington police ambulance and rushed to the Symmes Hospital. Efforts to revive the boy were given up after more than an hour's work.

Meanwhile, a police lifeboat was launched and grappling irons were used for an hour before James Haley's body was recovered under the bridge. He was also taken to the Symmes Hospital where efforts to revive him proved unsuccessful.

The bodies were identified early Friday evening.

Scores of homeward bound motorists were attracted to the bridge while rescue operations were going on. Answering the first emergency call were the special service company with the Fire Department emergency truck, and Ladder 1 Company, the Arlington police ambulance driven by patrolman William Mahoney, and two cruiser car crews. Police Sgt. Charles Toomey and Inspector George Fitzgibbons also went to the scene.

A double funeral for the two brothers was held Monday morning. Besides their parents, the Haley brothers leave a sister, Jane, three.

Dr. Yeo concluded his speech by emphasizing that the Christmas message places the highest value upon the individual human being, whoever he may be, and presents the solution for his improvement and salvation.

The class president, William H. Rule, Jr., who presided at last Sunday's meeting, announced the annual Christmas party for the Sunday School to be sponsored by the Men's Class would be held on Monday evening, Dec. 23. Carl Everberg, who served as chairman during the attendance contest with the Men's Class of Medford, spoke briefly on the continuance of the Red, White and Blue teams within the Arlington Men's Class as a means of sharing responsibility and promoting competition in the various activities of the Class.

The Tower Mothers' Club enjoyed its annual Christmas party at the home of Mrs. Albert Fitzgerald, 94 Granview road, which was attractively decorated for the occasion. Games were played and were served by the co-hostesses, Mrs. Alec Dalrymple, Mrs. Bernard Hutchinson and Mrs. Nish Atamian.

## A THOUGHT FOR THE NEW YEAR

The present decade may be an age of realism, and the time may call for realistic thinking, as some men say. But too often realism has meant stooping to the ugliness of the mire, rather than reaching upwards toward the beauty of the stars. Realism has its value—but the great things of life have been done by the dreamers—by those who looked aloft and then made their dreams come true.

Thoreau once said: "If you have built castles in the air, your work need not be lost; that is where they should be. Now put foundations under them."

Practical dreamers do not deny the evil and ugliness abroad in the world. They do, however, look through and beyond and build, even if only in visions, the world as it should be—a place where all groups and individuals can and will recognize each other's rights as they recognize their own obligations, where all peoples, regardless of race or creed or color, can work together in a spirit of cooperation, and live together in mutual trust, friendship and brotherhood.

If the world is to emerge from chaos, firm foundations must be built for this dream. Foundations are not built all at once, but stone by stone, slowly and laboriously, each person doing his or her share. There must be no defective material used, nothing that will not stand the strain and stress of the winter's gales. The foundation must be absolute justice toward all—not just according to man's desires, but justice which affords to every living soul the opportunity to build his life without fear, and with freedom from want, to worship in his own way, and to hold his head up as a free man.

Such a task will require the selfless devotion on the part of each and every one of those who honestly desires a permanent peace based on international understanding. It is a task for the individual. It is a task for individuals working together.

Now, with the coming of the New Year, is the time for all dreamers to get together and work to put a firm foundation under their dreams for a better world for all mankind.

## THE FREE HANDS OF AMERICAN LABOR

It is refreshing to report that some labor leaders have not been carried away by a "rule or ruin" policy toward industry—and are not advocating programs whose purpose is to get more pay for less work. An excellent case in point is provided in an article in Reader's Digest by Walter Cenerazzo, president of the American Watch Workers Union.

Mr. Cenerazzo's article is in the form of a letter to union members. He writes: "Sales make wages. Production makes sales, and low-cost, low-price production makes more sales."

"Capital and management can absorb wages up to a point and still reduce costs, reduce prices, increase sales and spread prosperity. But now we've raised wages to where management can't do it alone. Now comes the biggest moment in the history of American labor. Now the unions have got to help capital and management carry the loads of more goods, more services and more welfare for the American people."

"American free enterprise now has to be saved by unions as well as management. Our foreign competition is more and more socialistic. . . . We Americans are representing real free enterprise almost alone. . . . You, my fellow unionists, hold in your free hands the decision between Americanism and totalitarianism."

That is the attitude that can make labor great and powerful and respected. Any other attitude is ruinous to labor as well as to the country which represents nothing but the result of the labor of all the people.

## The NEWS OBSERVES

President Truman gave Americans another reason to look forward to the New Year with optimism when, on New Year's Eve, he proclaimed the period of hostilities "ended." The proclamation wiped away certain wartime powers of the government and cut back taxes on liquor and other luxuries effective July 1, 1947. It brought to an end U. S. power to seize plants in labor disputes. However, it did not end the draft nor affect controls on rents.

Proclaimed the President: "With God's help this nation and our allies, through sacrifice and devotion, courage and perseverance, winning final and unconditional surrender from our enemies. Thereafter, we together with the other United Nations, set about building a world in which justice shall replace force. With spirit, through faith, with a determination that there shall be no more wars of aggression calculated to enslave the peoples of the world and destroy their civilization, and with the guidance of Almighty Providence great gains have been made in translating military victory into permanent peace. Although a state of war still exists, it is at this time possible to declare, and I find it to be in the public interest to declare, that hostilities have terminated."

It's common enough to find one's car ransacked when a Hemlock st. shopper returned to his auto in Arlington Centre Tuesday afternoon and found a \$5 grocery order in the back seat, he couldn't believe his eyes. He reported it to the police. The following day, the owner of the groceries notified police she had placed the order in the wrong car during the shopping rush.

The State Legislature convened Wednesday at the State House with two Arlington Representatives, Hollis M. Gott and Hallam T. Ring, among those taking the oath of office. The members of the General Court were sworn in by former Governor Maurice J. Tobin, who was succeeded yesterday by Governor Robert F. Bradford.

Representative Gott will serve as House chairman of the important Committee on Taxation during the coming year. Representative Ring will be a member of the Highways and Motor Vehicles, as well as the Water Supply committees.

Representative John F. Foster, who represents precincts 1, 3 and 5, will serve on the Metropolitan Affairs committee and the State Administration committee while Allan R. Kingston, a new Representative serving the East Arlington precincts, will be a member of the committee on Bills in Third Reading.

Last week-end's snowstorm brought ideal coasting conditions for Arlington youngsters during their Christmas vacation. However it resulted in a series of headaches for the police who have been deluged with complaints regarding coasters during the past week. Coasters should avoid heavily travelled streets and use only those streets designated by the Board of Selectmen. These were listed in last week's NEWS. These streets are posted for the youngsters' protection.

The great skid season will be at its height in many parts of the country in January and February, warns the National Conservation Bureau, accident prevention division of the Association of Casualty and Surety Executives.

"This calls for extraordinary precautions by motorists to avoid getting into one of those uncontrollable spins which account for so many accidents on America's streets and highways," says the safety men.

Remember the following recommendations:

1. When starting car on a slippery surface put gear in second; engage clutch very slowly and carefully.
2. When stopping on slippery surface, leave the clutch engaged and apply brakes lightly and intermittently.
3. Approach curves slowly. If there is still a tendency to skid, accelerate very slightly as you round the curve.

To come out of a skid:

1. Steer in the direction of the skid.
2. If the roadway ahead is clear, accelerate slightly and steadily.

### Job Opportunities

MANY letters have come to me from young men and women all over the country asking where the best job opportunities will be found in the next few years.

Several hundred years B.C. the Greek philosopher, Heraclitus, said, "There is nothing more permanent than change". His philosophy still holds good—especially in the world of work. Planning a wise vocational choice is, in some ways, like duck hunting. If you shoot where the bird is at any given moment, you may waste your ammunition. Job opportunities are always in more or less of a flux due to such factors as (1) wars, (2) boom periods, (3) depressions, (4) new inventions, (5) changes in people's wants and desires.

Probably the best way to predict the job opportunities of tomorrow is by looking at the trends of yesterday. For example, according to the U. S. Bureau of Census, 33 out of every 100 gainfully employed in 1910 were in agricultural pursuits. Today, only 18 out of 100 are so employed. This casualty, for the most part, has been due to technological development. Thirty years from now small farms will be used only for inflation hedges or sustenance purposes. Food is destined to be grown on great farms as surely as shoes are made in great factories.

### Professions Or Manufacturing?

Another illustration: Professional workers such as lawyers, engineers, teachers and dentists increased from 4 per 100 in 1910 to 8 per 100 today. While opportunities for professional workers will continue to expand, it is the belief of experts that there will not be enough jobs for all of the young people who wish to enter these fields. My advice is, therefore, that, unless you have a vital interest in and an unusual aptitude for one of the professions, you had better consider other vocations where there will be greater opportunities.

Since 1920, manufacturing and mechanical industries have employed more workers than any other vocational groups. A figure of over 30 out of every 100 has been reached. I visualize that during the next 30 years America, and even Eastern Europe and Asia, are headed for a trial of a nearly completely mechanized civilization. Since, then, the essentials of life will be taken care of by machine, the greatest vocational opportunities may be for machine builders, machine repairers, machine tenders and technologists.

### Transportation, Distribution, Trade Vocations

These must complement the manufacturing and mechanical industries. People need manufactured goods. They have gone long without them. Someone must transport these goods from the factory, and someone must distribute them to the consumer. The number of workers involved in such pursuits has more than doubled since 1870 and will, no doubt, continue to increase in the years ahead.

For young women the clerical field will probably continue to offer the best opportunities. The number of clerical workers more than doubled from 1910-1945. These jobs will continue strong in order to keep up with the needs of business and industrial, transportation and distributive activities. But as wages increase, young women must do more and better work. "Any girl" cannot get jobs much longer.

### Babson's Advice to Job Hunters

It is impossible to have a great war without "paying the piper". Sooner or later we are bound to witness a business depression. Therefore, whether you be laborer, operator, craftsman, salesman, administrator, or what, look for work with (a) a company whose earnings fluctuate a minimum between good times and bad times. A toilet tissue manufacturer would qualify, while a steel company would not. Or (b) work for a company which furnishes a necessity and whose business holds up during a depression. A fire insurance company would qualify, while a hotel would not. Or (c) work for a growing industry such as chemical companies. Or (d) work for a concern that can quickly mark up prices in case of inflation. Chain stores would qualify; railroads would not.

### Stolen Car Recovered

Stolen from Massachusetts Ave., at Menotomy road, Sunday afternoon an auto owned by Herbert E. Farner Jr., 125 Brattle lane, was recovered by Arlington police two hours later. The car was found on Paul Revere road.

3. Do not apply brakes unless a collision is inevitable. Braking almost invariably increases the skid. However, there are times when braking may prevent a crash into a vehicle immediately ahead.

## BACK AGAIN

Now that the winter is here and having our equipment in top shape, we are in a position to offer you three things that we were always noted for:

**Service — Quality — Economy**

My brother and I realize that you had a pretty hard time getting oil and coal, plus service, during the war years, however, you must also take into consideration that our four years of overseas duty with the Infantry wasn't exactly a pleasant experience.

We want nothing from the government. All we ask is that you as an individual give us a chance to get started on our feet again.

Just call or write—

## Mr. and Mrs. Pike Mark Anniversary With Family Reunion

Mr. and Mrs. Willard U. Pike of 28 Albemarle St., observed their 55th wedding anniversary with a family party at their home on Christmas Day. Four generations gathered to celebrate the occasion as Mr. and Mrs. Pike have four great-grandchildren, Arlene, Sandra, John and Donald Gunn of Arlington.

Among the guests were Mrs. Donna L. Moore of Brockton, a sister, and A. H. Pike, a former resident of Arlington, now living in Brockton also Mr. and Mrs. Walter McInnis and daughter, Winifred, of Hudson, N. H., and Mr. and Mrs. Leslie E. Pike and daughter, Phyllis of Arlington and Mr. and Mrs. John F. Gunn and daughter, Julia and sons, Donald and John, together with Mrs. M. John Gunn and family; also the Misses Grace and Martha Barr and Mr. Sumner Erickson of Arlington. Married in Alameda, Calif., on Dec. 26, 1891, Mr. and Mrs. Pike have made their home in Arlington for the past 45 years. Both Mr. and Mrs. Pike enjoy good health and are keenly interested in every family project as well as in every present-day civic and national problems.

## UNIVERSITY THEATRE

The film drama, "Nobody Lives Forever," which comes to the University Theatre on Sunday provides John Garfield with a role which should go far toward pleasing his staunchest fans. For the popular screen "toughie," co-starred in the picture with Geraldine Fitzgerald, portrays a rugged and ready Army veteran struggling to re-establish himself as a "biggie" in the racket, a role peculiarly suited to the Garfield talents.

"Genius At Work," the companion film, features Alan Carney and Wally Brown.

An interesting question to today's younger set and adults who enjoy memories of their youth is: what happens when a bashful, 16-year-old high school girl falls in love with her new French teacher.

The answer is clearly and amusingly given in the Technicolor comedy-drama, "Margie," starring Jeanne Crain, Glen Langan, Lynn Bari and Alan Young, which comes Wednesday for four days. The companion film is "The Falcon's Adventure," featuring Tom Conway and Marge Meredith.

## 1946 Reviewed for Men's Class

On Sunday the Men's Class of the First Baptist Church was treated to a particularly fitting message by the class teacher, Rev. Nathan W. Wood, entitled "1946 in Review."

Mr. Wood comprehensively discussed the events and developments of 1946 in various fields of human activity and gave his interpretation and opinion as to their significance and indications for the future.

In a most illuminating and helpful way, Mr. Wood reminded the class that the solution to many current problems in all walks of life is offered by the Christian religion and specifically suggested how the Christian individual in his every day life could make a substantial contribution toward overcoming many present problems and difficulties at home and abroad.

The class meeting was conducted by president, William H. Rule, Jr., and the scripture was read by Harold E. Meyer. Gertrude Mellen sang "He Shall Lead His Flock," and was accompanied on the piano by Harvey R. Davies.

Next Sunday, Rev. Mr. Wood will speak to the class on, "1947 in Prospect."

Another clothing exchange will be held in the basement of the Locke School next Wednesday from 11 a. m. to 4 p. m., under the direction of the Locke School PTA.

A very successful sale of clean, used clothing for children to size 20 was held last month and it is planned to repeat the sale once a month during the school year.
